Our Mission: To enhance the value of the student experience at the UC Davis Graduate School of Management by creating a collaborative community that facilitates academic, social, and professional growth. We infuse energy into every activity while building a reputation of innovation and excellence.

Minutes

We discussed the addition of an entrepreneurship club – founded by Tyler, Vanessa, Mike, Mackenzie.

“We seek to lay a foundation of knowledge for future entrepreneurs. We will provide a forum for students who are curious about starting and running their own business but want to learn more about the process, know where to start, and meet like-minded individuals.”

We also discussed how elections will run in January, and how many leadership positions will be available for each club (most clubs will have three members - exceptions are Net Impact and possibly C4C).

• The first or second week of January (approx. January 15th) we will send out a survey to learn which clubs are of interest to students. We have so many clubs now, that it might be necessary for us to consider discontinuing clubs with minimal interest.

• Club elections will be held later in January

The layout of ASM for next year will include 7 members:

• President
• VP/Club Liaison
• Marketing
• Orientation (MPAC & MBA)/Alumni Liaison
• Treasurer
• International Liaison
• MPAC Rep
