

GETTING GSM CAMPUS READY GALLAGHER HALL - COVID SAFETY PROCEDURES

Keeping our community safe and healthy will require patience, consideration and empathy. We know Graduate School of Management community members are up for the challenge. As state guidance has changed, the GSM is still operating under Pending Operational Change.

BEFORE YOU ARRIVE AT GALLAGHER HALL

Please assess how you are feeling. **DO NOT COME TO CAMPUS IF YOU ARE NOT FEELING WELL.** Err on the side of caution. Your professors and GSM leadership will not penalize you for staying home.

While on campus and in the building, we expect you to follow these guidelines:

- Complete the [Daily Symptom Survey](#) before arriving to campus.
- **Everyone is required to wear face coverings indoors, regardless of vaccination status.**
- If a person is fully vaccinated, the only time a face covering can be removed indoors is when that person is alone in an office or a cubicle. If a person is unvaccinated, they must wear a face covering indoors at all times and outdoors in crowded spaces.
- Starting September 20, **fully vaccinated individuals must undergo asymptomatic testing every 14 days** in order to be in compliance and gain access to campus facilities. **Unvaccinated individuals must get tested every four days.** Testing is available and [by appointment only](#).
- You may remove your face covering briefly to eat or take a quick drink. Eating is allowed in employee breakrooms, private offices, and campus dining locations. Unvaccinated individuals are required to maintain physical distance while eating or drinking in a breakroom setting.
- The GSM is providing hand sanitizing stations throughout the suite for your convenience.
- Employees and students must report a COVID-19 diagnosis for themselves or someone with whom they share a residence. To report a positive case or concern, email reportcovid@ucdavis.edu. You may also visit the [Campus Reporting](#) website for more information.

All guidelines follow [Campus Policy 290-01](#). While in the building, please follow the safety signage posted throughout the building. Signage has been placed for your safety. We appreciate your cooperation to keep yourself and others safe. If you have any questions or concerns about COVID Safety procedures and protocol, please contact:
